## ALL ARMY OFFICERS ON LEAVE OF ABSENCE ARE ORDERED TO RETURN TO COMMANDS AT ONCE

### RAILROADS HOLDING CARS TO TRANSPORT THE TROOPS SOUTH ON SHORT NOTICE

AMBASSADOR WILSON IS DI-  
RECTED TO DRAW ON UNITED  
STATES TREASURY FOR ALL  
FUNDS NEEDED.

WASHINGTON, Feb. 13 — At  
the direction of President Taft, Sec-  
retary of State Knox today directed  
Ambassador Wilson in Mexico City  
to draw on the United States treas-  
ury for as much money as needed to  
house and feed all foreign refugees  
in the Mexican capital.

The ambassador reports there  
are over 600 foreigners, about one-  
half of whom are Americans, now  
refugees at the embassy.  
Adjacent buildings have been  
rented for use as quarters for these  
refugees and the men and women  
who know how to use a gun are  
armed and supplied with ammunition  
to guard the embassy.

All leaves of absence in the  
United States army have been re-  
voked and all officers have been or-  
dered to return to their commands  
immediately.

The railroad systems are holding  
their cars ready to transport troops  
at a moment's notice, and the army  
transports at Newport News and  
Galveston are being held ready to  
sail.

Maor General Wood today de-  
clared that the administration in-  
tends to stave off intervention as  
long as possible, adding that he does  
not consider the killing of two  
women yesterday a valid excuse for  
landing troops in Mexico. He said:  
"These are the 'fortunes of war,'  
and the Americans have not been di-  
rectly attacked."

A dispatch from El Paso, Texas,  
today at the state department states  
that the rebels are advancing on  
Jauerez and that the American troops  
have seized a large supply of am-  
munition intended for the insur-  
rectors.

**Taft Withholds Action—**  
Realizing the tremendous expense  
which intervention means, President  
Taft today withheld action on the  
Mexican matter. He took this stand  
in spite of the confirmations re-  
ceived from Americans in the Mex-  
ican capital.

Army officers conferred with the  
president today, informing him that  
intervention means seven years of  
war, as organized advances against  
guerrilla bands in the country to  
the south is possible.

The president is receiving hourly  
advices on the progress of the fight-  
ing in the capital of Mexico today.

The report was received today  
that two officers of the gunboat Den-  
ver went ashore at Acapulco and  
were pursued and rotten egged.  
Then the assailants changed their  
missiles to bricks. The officers drew  
their revolvers, backed into a

### Desperate Battle Continues—

MEXICO CITY, Feb. 13 — In a  
desperate effort to drive the rebels  
from the arsenal, the federals op-  
ened a brisk bombardment at sunrise  
today and all the rebel guns were  
trained on the rebel stronghold.

By 7 o'clock the shells were again  
falling in all parts of the city. The  
troops on both sides are becoming  
exhausted with the 60-hour constant  
vigil. The rebels were reinforced  
by the Zapatists during the night.

Many foreigners, including Amer-  
ican women and children, are being  
hurried out of the city in automo-  
biles. Scores of the victims of  
yesterday's fighting are still lying in  
the streets.

Ambassador Wilson today urged

## TROOPS RAID VILLAGE NEAR PAINT CREEK

CAPTURE 68 MEN AND TAKE  
MUCH ARMS AND AMMUNITION

TOWN HAS BEEN HOTBED OF  
TROUBLE SINCE THE COAL  
STRIKE BEGAN SEVERAL  
WEEKS AGO.

CHARLESTON, W. Va., Feb. 13—

Troops today raided the village of  
Holly Grove, in the mining region,  
and captured 68 men and a large  
quantity of arms and ammunition.

The town has been a hotbed of  
trouble since the coal strike began  
several weeks ago. The prisoners  
were taken to Paint Creek under  
heavy guard. In all 120 men have  
been placed in jail since the recent  
riot. Charles Boswell, a socialist  
editor, was arrested today, charged  
with inciting riots.

The auction sale of North Ridge-  
wood lots, by the Bowman Realty  
company, did not take place this  
morning at 10 o'clock as advertised,  
owing to the inclement state of  
the weather.

## CITY ELECTION PASSES OFF QUIETLY AND COUNTING OF BALLOTS BRINGS SURPRISES

M. H. ZUBER MEETS ANOTHER  
DEFEAT AND CONRAD, SMITH  
AND O'BRIEN ARE RETURNED  
TO COUNCIL.

With a total of only 222 votes cast  
the annual city election passed off  
quietly Wednesday, but the counting  
of the ballots that night brought  
out some decided surprises. There  
were no particular issues brought  
out in the campaign, which had been  
conducted quietly and with each of  
the candidates working among his  
friends.

The count of the ballots cast in  
the election showed Mayor Henry T.  
Titus had been re-elected by the  
close margin of three majority over  
Joseph Osborne, former member of  
the city council and present mem-  
ber of the board of public works.  
Mayor Titus received 110 votes, and  
107 were cast for Mr. Osborne.

In the contest for city assessor  
George F. Crouch was elected over  
D. F. Randolph, present assessor,  
by the narrow majority of seven  
votes.

The predicted close contest for  
members of the city council did  
not materialize, E. T. Conrad, Lew  
Smith and S. W. O'Brien being re-  
turned. Messrs. Conrad and Smith  
have just completed a term of two  
years, and S. W. O'Brien has just  
completed the one-year term, having  
been appointed to fill the vacancy  
after the resignation of James Rix  
last year. Councilman Smith re-  
ceived the largest vote cast for any  
opposed candidate for member of the  
council in the election.

E. S. Hall, for the one-year term  
as councilman, A. McF. Porter for  
clerk and collector, and F. N. Con-  
rad for treasurer had no opposition  
in the election.

The counting of the ballots Wed-  
nesday night showed the following  
results:

For Mayor —  
Henry Titus, 110; Joseph Osborne,  
107.  
For Collector —  
A. McF. Porter, 165.  
For Clerk —  
A. McF. Porter, 181.  
For Assessor —  
Geo. F. Crouch, 106; D. F. Ran-  
dolph, 99.  
For Treasurer —  
F. N. Conrad, 177.  
For Councilmen, two years —  
E. T. Conrad, 109; S. W. O'Brien,  
107; Lew Smith, 118; M. H. Zu-  
ber, 87; Henry Van Dorn, 77; Chas.  
Kost, 58.  
For Councilman, one year —  
E. S. Hall, 144.

Mrs. M. E. Toomey and daughter,  
Miss Ollie Toomey, of Rochester, N.  
Y., sister and niece of Chris Gough-  
erty, are visiting Mr. Gougherty for  
a time at his home, 26 Orange ave-  
nue. They arrived in Daytona Tues-  
day.

## MEDICAL VALUE OF SPICES

They Arouse the Appetite and Promote the Secretion of the Gastric Juice.

The spices are a very interesting group of substances; they are the foundation of a considerable industry, they have their medical uses and finally are of special importance in dietetics.

Their value resides in their richness in aromatic substances and essential oils; strictly speaking, they are not foods, but often enough they are essential elements in the diet. Spices have been the subject of classic research, as, for example, in the clover and important investigation which Pawlow undertook as to the psychic influences of food and as to the value of rest in nutrition.

Spices were shown to arouse appetite and to promote the secretion of the gastric juice, and the role they play therefore in dietetics is a very important one. The medicinal action of some of them is further of value. Allspice, for example, is used as an aromatic and has been successfully administered for flatulency or for over-coming griping due to purgatives, and occasionally it is reported that the oil gives relief in rheumatism and neuralgia.

The medical uses of cinnamon are well known. Cardamoms are used in the form of a tincture as aromatic and stomachic and they are also employed as a flavoring agent in curry powder, cakes and liqueurs. The applications of capsicum and the peppers generally are well known. Cloves are aromatic, carminative and stimulant and have been used in dyspepsia, gastric irritation and in cases of vomiting in pregnancy.

Oil of cloves is also a popular remedy for toothache. It has also its uses in microscopy as a preservative and for clearing sections. The uses of nutmeg are wide, vanilla has an enormous application as a flavoring patronage on account of its bright yellow color and pleasant musky flavor.—Lancet.

### Chinese Memorial Arches.

The p'ai-lous, or memorial arches of China, says Frederick McCormick, in the National Geographic Magazine, rival the pagodas in grace, beauty and numbers. Many of them are erected to commemorate the devotion of virtuous widows who refuse to remarry. The fabled phoenix, which never changes its mate, is prominent in the decoration of these arches.

### Ideals.

Ideals are like stars; you will not succeed in touching them with your hands. But, like the seafaring man on deserts of water, you choose them as your guides, and following them reach your destiny.—Carl Schurz.

## A MAN YOU KNOW.

M. H. ZUBER

Meets another defeat; this time for member of the city council.

### Disputed Door.

A curious suit is reported from Avignon, France. It is brought by an antiquary to obtain possession of the door of the city of Avignon, which he had bought. Possession was refused on a prior contract with another party, but this contention was discovered. At this stage it was discovered that an old agreement existed prohibiting the demolition of any part of the property. This agreement is now being contested, and it is anticipated that the sale to the antiquary will be confirmed.

### "Wise-Acres."

"Wise-acres" has its origin in Ben Jonson's retort to a countryman who boasted interminably of his acres, till Ben said: "What signify to us your dirt and your clods? Where you have an acre of land I have ten acres of wit." The countryman retorted by calling Ben "Good Mr. Wiseacre." This is a good story, but perhaps the term wiseacre comes from the corruption of the German, weissager, a wise-sayer.

### Economy Due to Science.

When sugar was made from beets it took about twenty tons of beets to produce one ton of sugar; now it requires but six tons, due to scientific breeding of the beets.

### Where She Got It.

Ethel—Maud says she uses lemon juice on her face for her complexion. Marie—I wondered where she got that sour look.—Boston Transcript.

**The finest resort hotel in the world is being built at Sunset Mountain Asheville, N. C.**

**Absolutely Fireproof Will open July 1st**

**Wm. S. KENNEY, manager**

**MR. E. W. GROVE**, of St. Louis, Mo., is building the finest resort hotel in the world, to be opened July 1st, 1913. It will be absolutely fireproof, and is being built of the great boulders of Sunset Mountain, at whose foot it sits. It is being built by hand in the old-fashioned way. Full of rest and comfort and wholesomeness.

¶ The front lawn is the hundred-acre eighteen-hole golf links of the Asheville Country Club, and with it sixty acres of our own lawn.

¶ The purest water obtainable anywhere, piped seventeen miles, from the slopes of Mount Mitchell, over 6000 feet altitude. Biltmore milk and cream exclusively, supplied from 200 registered Jerseys on the estate of Mr. Geo. W. Vanderbilt. It is doubtful if this famous dairy is equaled in the world.

¶ Four hundred one-piece rugs are being made at Aubusson, France. Seven hundred pieces of the furniture are being made by hand by the Roycrofters. The silver will be hand-hammered.

¶ The plumbing material will be the finest that has ever been placed in any hotel in the world. The soil pipe has been hydraulically tested and then galvanized. The hot water pipe, 18,000 lbs. in weight, will be solid brass. The steam pipes are Byers' genuine lap-welded wrought iron tested hydraulically to 1000 lbs. The bathtubs and fixtures all solid porcelain. No pipes visible anywhere. No radiators to be seen—all placed in recesses under windows. No electric bulbs to be seen.

¶ The "Big Room," or what some call the lobby, is 80 feet by 120, and the rugs in this one room will be worth \$5000.00. The two great fireplaces in it will burn twelve-foot logs.

¶ For the golfers we are building lockers and shower bath rooms with a forty-foot swimming pool that will not be excelled by the finest clubs in existence, and the players will be less than 100 yards distant when they are on the links.

¶ Mr. Wm. S. Kenney, of Bretton Woods, N. H., who has shown in his management of The Mount Washington hotel and Hotel Clarendon, that he is the peer of hotel keepers, will manage the Inn.

¶ We own eight hundred acres around the Inn (consumptives not taken).

¶ Especially available for northern guests in the Spring, Fall and Winter, going or returning from farther southern resorts, or for an all Winter resort.

¶ The Inn is located on the side of Sunset Mountain, about a mile from the top, and is not only cool enough in the Summer to make a blanket necessary at night, but is protected and mild enough in the Winter to make life enjoyable without enervation.

## WILKINSON PLACED

## UNDER \$1,000 BOND

(Continued from First Page.)

\$1,000 bond, pending the outcome of the boy's injuries.

The general opinion of persons who know the facts concerning the accident is that Mr. Wilkinson was in no way to blame, it being one of those unavoidable accidents where the child darted in front of the car and the driver had no time in which to stop.

Dr. Bohannon had stopped his car in the street in front of the school house to fix a tire and the boy was standing near the doctor's auto watching the repair work being done. Suddenly he took a notion to cross the street and darted from behind the Bohannon car into the road just as the Wilkinson car came along.

The lamp or spring of the Wilkinson car struck the boy on the side of the head, throwing him back beside the road. The blow fractured his skull. A hurried examination by Dr. Bohannon showed the injury to be serious and the boy was hurried across the river to the hospital.

## On Boston Common.

Comparatively few people know that there was once a "spinning school" on Boston Common. Winsor's "Memorial History of Boston" records that upon the arrival in Boston of some Irish spinners and weavers a spinning craze took possession of the town, "and the women, young and old, high and low, rich and poor, flocked into the spinning school, which for want of better quarters, was set up in the Common, in the open air. Here the whirl of their wheels was heard from morning to night." Thirty-five years later the Society for Encouraging Industry and Employing the Poor again used the Common as a spinning school, about 300 young women appearing there.

## Steel Stays Stopped Bullet.

Steel stays have saved many a woman's life. Not long ago Mary Hennessy was taken to Bellevue hospital with a flesh wound in the side, and Dr. Drury discovered that had it not been for a steel stay which deflected the bullet the wound would have been fatal, for the slug had been traveling toward a vital organ.

ADDITIONAL  
BATTLESHIPS  
ARE NEEDEDGERMANY IS CASTING EYES  
AND STRENGTHENING POWER

EXPLANATION GIVEN WHY THE NAVAL OFFICERS ARE ALL THE TIME URGING A STRONGER NAVY HERE.

WASHINGTON, Feb. 13.—What is the definite reason behind the urgency with which Admiral Dewey and the Navy Department are pressing congress for three battleships a year?

Ask any navy officer and he will tell you, if he cares to speak frankly, that our government fears armed conflict with Germany and that this is why we need more big ships.

England has for some time past felt much alarm on account of the rapidly growing sea power of the German empire which threatens her maritime supremacy; but there is a growing belief both here and on the other side of the water that Germany's preparations are aimed not at England but at ourselves, that the shadow of the Teuton is preparing to fall upon the western shores of the Atlantic because the eastern are too congested for her use.

But why? We have no quarrel with Germany. Relations between the two nations were never more peaceful. What should cause the outbreak of such a war? Look for the answer in the Monroe Doctrine. The kaiser is getting ready to smash it and the American people who worship this doctrine even more than they do the constitution or any of the other history-hallowed institutions of the past will be resentful of such progress. Therefore, will war follow, according to local military experts who have studied the problem from a number of angles.

It is not that the kaiser is looking for trouble; he would rather avoid it if possible. But there is something on this side of the ocean which he wants, which Germany must have to maintain its present position among the nations of the world and therefore the fatherland will have to fight for it.

Germany, with an area only four-fifths as great as Texas has a population of 68,000,000. Race suicide is unpopular in that country and cradles there are filling at such rate that more territory must be had to accommodate the people. Unfortunately, Germany possesses no colonies worthy of the name and (all the rest of the world having already been grabbed by other nations) she has long cast a covetous eye on South America.

The only reason that she has not long ago annexed a considerable portion of the continent to the south of us is because of the existence of the Monroe Doctrine, which prohibits foreign powers from acquiring new territory in this hemisphere and which would certainly lead to hostilities if any European nation attempted to infringe upon it.

Germany does not care for the Monroe Doctrine the least bit. As a doctrine it means nothing to her. Her ministers have been accused time and again of breaking the moral code, the decalogue of all the laws of men — therefore why should she respect such a puny thing as the Monroe doctrine?

The answer is — she doesn't. But she does care for the United States navy, which, until recently, was more powerful than that of the fatherland. The Monroe Doctrine is as strong as the military power which backs it up, and not one bit stronger. This means that it is at present rather weak, for Germany's sea power is at present far stronger than our own. While congress has been haggling over naval appropriations, the kaiser's government has been building battleships at the rate of three a year and we have been left far behind.

If you think that this is an exaggeration, look at the following figures, culled from the latest report of the secretary of the navy:

The only really effective fighting vessels today are the so-called dreadnoughts — the all-blue-gun ships. They have made all other and older battleships obsolete. We have eight of them now in commission; Germany has 12.

We have four more dreadnoughts now under construction; Germany has 11.

Two years from now we will have 12 dreadnoughts afloat; Germany will have 23. To sum up: Germany is today 50 per cent stronger than we

## FREE THEATER TICKET CONTEST

Arouses Keen Interest—you can be guests of the Daily News at a Theatre Party to see

MR.

## Paul Gilmore

Keen interest in being manifested in the Daily News "Misspelled Word Contest." The Daily News has purchased 12 \$1 seats which will be awarded as prizes to participants in this contest for finding misspelled words in the Daily News pay local readers, and press notices of the Paul Gilmore company.

Contestants must read and give both the correct and incorrect way of spelling the misspelled words in the Daily News pay local readers. A coupon will be found attached and each day's answers must be accompanied by one of these coupons.

Neatness, legibility of writing and novelty in sending in the replies will be considered a mark of credit and should be taken into consideration by those who are competing for the twelve theater tickets.

Contestants must submit their answers not later than the evening of February 19th, holding the six coupons and answers until the close of the contest, then mail or bring to the Daily News.

Neatness, originality, accuracy, etc., will be considered in the awarding of prizes, which will be divided as follows:

- |               |                 |
|---------------|-----------------|
| 1st . . . . . | 4 \$1.00 Seats. |
| 2nd . . . . . | 3 \$1.00 Seats. |
| 3rd . . . . . | 2 \$1.00 Seats. |
| 4th . . . . . | 2 75c Seats.    |
| 5th . . . . . | 1 \$1.00 Seat.  |

By participating in this contest you will no doubt find something to your advantage in our local columns and at the same time gain knowledge as to "THE HAVOC," that remarkable play which ran for over one solid year in New York, and which Mr. Gilmore will present here on Friday evening, February 21, at the New Daytona theater.

To Contest Manager

The Daily News:

The following words were misspelled in Paul Gilmore Press.

are in first class fighting ships. It by no means covers all the facts in the case.

Germany already has in commission three "battle cruisers" and is building three more — six in all. These may be referred to as "cruiser dreadnoughts," swifter than the battleships, carrying guns of the largest calibre, though not so many of them, and capable of taking place in line of battle with the dreadnoughts while they are far more valuable for destroying commerce.

There is not a single ship of this class now in the roster of the United States navy!

In addition to the Germany has 132 torpedo destroyers built or building as against our 50; Germany has 15 of the new type armor cruisers, we have six; Germany has 58 submarines, we have 22.

## Receiver Has Sanitary Ear Pad.

Sanitary attachments for the transmitters of telephones are numerous in this country, but France has gone one better in the matter of a sanitary pad for the receiving end of the telephone. The ordinary hard-rubber earpiece of the monophone type of instrument, which is much used in France, is removed and its place taken by a round pad formed of 250 leaves of sterilized paper. Every time the telephone is used one of the leaves is torn off. The purpose of the pad is, of course, to protect the ear from being soiled.—Popular Mechanics.

## Lawyer for the Apaches.

One Paris lawyer has had his name struck off the rolls because it was discovered that he acted as the regular legal adviser to the "apache" fraternity, from which he drew \$5,000 annually in fees. One day he was engaged to defend an apache in a suburban court.

His client was not satisfied with the lawyer's procedure in the case, and after a heated argument outside the court the client threw the lawyer into the River Marne.

Memoranda of Sir Walter Scott. The Edinburgh Corporation museum has been enriched by the presentation to it of two letters written by Sir Walter Scott, the quill the great novelist used, a lock of his hair, and a box of quill points with portrait of Sir Walter on the lid.

## Beneficial Stimulant.

The coca leaf is highly prized by the native of Bolivia as a stimulant. He chews it like tobacco, but with a better excuse, since by its use he can perform great feats of endurance and go many hours without food. With a pouch of cocoa leaves and a small bag of parched corn he can run fifty miles a day. Fleet-footed Indians constitute the telegraph service of the country.

## Labor-Saving Device.

A piece of plate glass to lay over the polished surface of the dressing table is a modern fashion which preserves the wood from stains or scorch marks caused by spirit lamps and tongs, while the washing of toilet covers is avoided and dusting simplified.

## KINGSTON.

Nella Carter has been seriously ill at the home of her brother Wallace Carter, but is improving. Kingston will have only six months of school this term.

Mrs. A. G. Carter has been sick the past week.

Dave Bradshaw is also on the sick list.

Rev. T. R. Adams is up from Lauderdale this week, visiting his wife who is here teaching.

Mr. Ballough has had some wonderful cucumber vines in his greenhouse lately, bearing hundreds of large cucumbers, many from 18 to 24 inches. They are of the Duke of Edinburgh and Long Telegraph varieties.

Erven Ballough took a trip in the airship a few days ago, on the beach.

## Concise Epistles.

Talleyrand could write a short letter. When a woman wrote to inform him of the death of her husband, he simply replied: "Chere Marquise, hélas." And among official dispatches there is that of Sir George Walton, who, after an engagement with the Spanish fleet, wrote: "Sir: I have taken or destroyed all the Spanish ships as per margin. Yours, etc." And a later instance was the complaint of Cecil Rhodes that Dr. Jim had upset the apple cart.

William Sulzer, shown here at his desk in the capitol at Albany, gives promise of being the most democratic governor that New York has had for many years. He has abolished "secret chamber" conferences and welcomes to the executive mansion everyone who desires to see him. Mrs. Sulzer, seen at the governor's right, is in accord with her husband's dislike of ostentation, is domestic in her tastes and enjoys making favorite dishes for the governor.

**REV. D. J. JENKINS'S WORK.**

The commissioners of the Industrial School for Colored Orphans of Charleston, S. C., the band of which is now in Daytona, at a recent meeting formulated the following statement, which the Daily News has been requested to print:

To the Public: We, the commissioners of the Industrial School for Colored Orphans of the City of Charleston, and having under our supervision the Jenkins Orphanage, feel it our duty to make a statement in regard to these institutions, and a plea for a more liberal treatment of them, not only at the hands of charity, but at the hands of all persons who are interested in the welfare of the city. Some of us have been identified with the fortunes and management of these institutions for many years. All of us have been in a position to observe with care the work that has been done for and in them. In the light of knowledge thus acquired, we assert that the work that the Rev. D. J. Jenkins has done and is doing, primarily for his own race, but in a larger sense for the City of Charleston and all of its people, is one that is worthy of recognition and approval from every citizen.

Whatever may be the difference of opinion between individuals as to the future of the negro of the South, we think it evident that he should receive encouragement, countenance and aid in every effort to lay the mud-sills of a better citizenship in his own race. In their present condition the masses of the negroes are a menace to the welfare of every community in which they are numerous. It is a condition which, time and time only, can correct—and time only may hope to correct it through earnest striving for racial betterment by the negroes themselves. In the light of this truth, we feel that a Southern community has no better citizen than the negro, who, putting aside all thought of political and of social preference for himself and his fellows, consecrates his life to the moral, mental and industrial rebuilding of his people. Such a negro citizen, as this is entitled to the sympathy, the respect and the material assistance of his white neighbors. Speaking with the authority of long acquaintance with the man and an intimate knowledge of what he has done against odds that would have long since daunted and overwhelmed a less courageous and conscientious person, we assert, without the fear of successful contradiction that the Rev. D. J. Jenkins is such a negro.

The institutions founded by the

**E. T. CONRAD**

Re-elected as a member of the city council.

Rev. D. J. Jenkins, and maintained by his unremitting labors, have taken hundreds of negro children— from the slums and gutters of Charleston, given them some rudiments of industrial training and enabled many of them to lead lives not unuseful to this community. It is futile to say that his efforts at rescue and improvement have not always proved successful. The fact remains that the efforts themselves are worth the making, and the results in a vast majority of cases have been as satisfactory as could reasonably have been expected. That 50 per cent of the total cost of these institutions is defrayed by work done by the inmates themselves is a convincing testimonial to the opportunities afforded the children in them to fit themselves for a better citizenship than they might ever have achieved had they not been consigned to the care of the Jenkins institution.

In making this statement and appeal, we feel that we are discharging a duty devolving upon us as citizens, as well as officials, to whom the public may look for information regarding institutions to which the City Council of Charleston gives the countenance of an annual appropriation.

**RULINGS AGAINST RAILROAD  
COMPANY BY SUPREME COURT****EAST COAST COMPANY MUST  
PAY DAMAGES FOR DELAYED****SHIPMENT OF VEGETABLES BY  
DECISIONS.**

MIAMI, Feb. 13.—The firm of Hudson and Boggs has just been advised of the winning of three suits brought against the Florida East Coast Railway company for the recovery of damages for delayed shipments of vegetables during last season by Leon Fornel of Buena Vista, and Hall - Dubois Packing company of Homestead.

Mr. Fornel brought two suits against the railroad, one in the sum of \$5,000 and one in the sum of \$2,500. The Hall-Dubois suit was in the sum of \$1,500. The lower court sustained the railroad's demurrer to these proceedings denying any liability in the matter and this ruling has now been reversed by the supreme court.

These cases were regarded as test cases while other large cases involving the same points were held in abeyance pending their outcome.

**Device to Frighten Baboons.**  
A novel method of trying to get rid of the baboon nuisance in the Graef-reinet district, Cape Colony, was recently put into operation by a farmer. This man conceived the idea of getting rid of the nuisance by capturing a full-grown male baboon, dressing him in all the colors of the rainbow, putting a sheep-bell round his neck, and turning him loose to join the troop to which he belongs. The farmer believes that by so doing there will be no baboons seen in his neighborhood for a good many years.

### THE TREES ALONG OUR STREETS.

A pamphlet issued by the special park commission of Chicago gives the following pointers about the planting of street trees:

Trees are best when nursery grown.

Trees transplanted from the woods should be seedlings.

A tree two inches in diameter measured one foot from the ground is large enough.

Trees should have a compact root system, straight main trunk and well balanced top.

The lower branches should be trimmed to a height of seven feet from the ground.

Trees should be free of fungus and insect diseases.

Tree holes should be larger than required by the root system.

Trees should be planted with as large a root system as possible.

Prevent drying, sunburn or freezing of exposed roots.

Plant the tree at the same depth and exposure as it formerly stood.

Trim off all torn and broken roots and branches with sharp pruner before planting.

Plant no trees closer than twenty-five feet.

Arrange the roots to spread naturally in loose soil.

Tamp the soil well about the roots.

Water the young tree freely, especially during June, July and August, with one or two thorough waterings each week.

Keep the soil cultivated around young trees.

A serviceable and strong tree guard should be placed around the tree.

### INTERURBAN LIGHTED WAY IN CALIFORNIA.

Project to illuminate One Hundred and Fifty Miles of Boulevard Under Way.

The intercity commission of eighteen, composed of six representatives each from Pasadena, South Pasadena and Alhambra, has inaugurated one of the most ambitious boulevard lighting projects yet undertaken anywhere. When the plan becomes a reality the fine highways which connect Los Angeles with the three cities mentioned will be illuminated throughout their entire twenty miles of length with a modern lighting system of the ornamental type. The section which includes Alhambra, more than six miles in length, has already been voted, and rapid progress in securing signatures to petitions for the other sections appears to insure the early completion of the work.

When other localities heard of the project they took it up with enthusiasm, with the result that in the Lancaster and Van Nuys districts to the northwest of Los Angeles a similar lighted way extending about twenty miles has already been ordered, and the people of the progressive beach city of Venice are working for a lighted boulevard from Los Angeles to their community. Still more striking is the endorsement of the lighted way by the representatives of the eighteen cities forming the San Gabriel valley intercity commission. Indeed, it now seems likely that in the not very distant future a system of nearly 150 miles of recently improved boulevards will be provided with splendid electric lights, thus giving to the visitors and residents in southern California exceptional facilities for highway travel by day and night.

### TO CLEAN UP GROCERIES.

No Cats, No Chickens, No Flies, to Be Allowed in Chicago Stores.

A systematic effort to obtain clean and sanitary groceries is to be made by the Chicago Clean Food club. The object of the organization is to enforce cleanliness in neighborhood stores. Some of the tenets of the club are:

No cats to be allowed in grocery stores.

No chickens to be kept in crates on sidewalks.

Stores having flies to be blacklisted.

No horse blankets to be kept in delivery wagons.

Everything to be kept off the foot and everything to be kept covered.

### The Cleanest Town.

The cleanest town in the world is said to be Brook, in Holland. It is only a few miles from the capital and has been famous for its cleanliness from time immemorial. It is also notable on account of the fanciful style of its houses and yards and gardens and streets. The people, though only peasants, are well to do, and feel a pride in their town. It seems to be the first business of their lives to keep their houses freshly painted, their gardens in perfect order and their yards and streets as clean as a parlor. No carts are allowed in the streets and no cattle, though the raising of stock and the making of butter and cheese are their occupations.

### Civic Education by Leaflets.

An excellent plan of arousing interest in civic matters among the membership of commercial organizations and throughout the community generally has been inaugurated by the Bangor chamber of commerce of Bangor, Me.

This consists in the issuing of occasional leaflets of a size that will fit in an ordinary small envelope and distributing these through the mails and otherwise.

### THE LOST FALCON.

Its Curious Recovery and a Test to Which It Responded.

A curious story about a falcon is told in "Game Birds and Wild Fowls," a column in the English army on a visit to Canada took with him two peregrines. During the voyage across the Atlantic one was missed, and the owner made up his mind that it was irretrievably lost.

While in Halifax some weeks later he happened to see in a newspaper a paragraph to the effect that an American schooner just arrived in port had on board a fine hawk that had come on board during the passage from Liverpool. It at once occurred to the colonel that it might be his falcon, and he lost no time in visiting the schooner.

The captain of the craft was inclined to doubt his story, but the colonel suggested that his claim to the ownership of the bird be put to a test. He was to be brought into the presence of the hawk, and if the bird was his he felt sure that it would show signs of recognition that would convince the bystanders that he was its owner. The trial was agreed upon, and the hawk was brought into the room.

The door was hardly opened before it darted for the shoulder of the colonel and evinced by every means in its power its delight and affection. It rubbed its head softly against his cheek and, taking hold of the buttons of his coat, clamped them playfully between its mandibles.

The proof was sufficient, and the bird was promptly given over to the rightful owner.

### THE OLD ROMAN LEGION.

Principles Upon Which Its Military Strength Was Built.

The Roman military unit was the legion of from 4,000 to 6,000 men, divided into ten cohorts. The strength of Roman arms lay in three things. The first of these was a careful selection of men from among such citizens as were practiced in arms. The second dependence was upon discipline. Warlike youths accustomed themselves to the use of arms as a recreation, so that it was said that their sports were battles without bloodshed and their battles bloody sports. The third point was the prompt adoption of all improvements suggested by the experience of foreign wars.

The Roman legion was practically never defeated so long as these three principles remained in force. The secret of its strength was the spirit of the men, who in their perfect discipline expressed their glory in Rome and their confidence in themselves.

The most brilliant achievements of this military instrument were attained by Caesar, who aroused the devotion of his troops to the highest point by making common cause with them in the pursuit of valor. As Plutarch says, "He showed them that he did not heap up wealth from the wars for his own luxury or the gratifying of his private pleasures, but that all he received was but a public fund, laid by for the reward and encouragement of valor." Edward Jones in Engineering Magazine.

### Not a Clothes Peg.

Peggie Newton had been a faithful household drudge for years and had not grumbled much when her wages were occasionally passed over. But as time went on and her salary fell more and more into arrears she ventured to ask for something "on account."

"Why, haven't I paid you your wages lately, Peg? How careless of me," her mistress said. "I'm sorry I have no money in the house just now, but here's a smart cloak which I've ceased to wear and which is only a wee bit out of fashion. You'll take it in lieu of wages, won't you?"

"No, ma'am, I'm sure I shan't," said Peg, wrathfully eyeing the faded old cloak. "A Peg I may be by name, but I won't be the sort of peg that people hang castoff clothes on—not if I know it."—London Globe.

### Two Monster Beetles.

The largest bug known to the old world entomologists is the gigantic Goliath beetle, which is found along the Kongo river in Africa. Goliath is upward of six inches in length from the tip of his nose to the nether end of his hard shelled body and has a pair of ganxy wings folded up under his arms, either of which is as large as a lady's face veil. But Goliath is a pygmy when compared with the elephant beetle of Venezuela, an entomological giant which weighs nearly a pound and which has a wing spread equal to that of a mallard duck. Both of these bugs are rare.

### Beating the Law.

"You are charged with going forty miles an hour," said the rural justice, and you are fined \$40."

"Judge," said the motorist, "I have only got 82."

"Well, you've got a nerve going forty miles an hour on a reserve of 82. Hand me the money."—Kansas City Journal.

### In After Years.

"I live to eat," chirped the gnat, years passed.

"Do you still live to eat?" inquired a friend one day.

"I never signed."

"I never lived," he admitted, "to take medicine."—Kansas City Journal.

### He Liked Bacon.

Miss Literary—Are you very fond of Bacon, Mr. Saphead?

Mr. Saphead—Yes, especially in the morning with eggs.

I have generally found that the man who is good at an excuse is good for nothing else.—Benjamin Franklin.

"THE BOOB'S INHERITANCE"

A Screaming Funny Comedy

"THE DEATH TRAIL"

A DRAMA OF THE NORTHWEST

\*Madam Ingomar, wonderfully gifted mind and psychic reader, 22 Magnolia avenue.

Inspectors Tyler and Strant were here from Jacksonville the forepart of the week to make an inspection of the yacht Sweetheart, recently purchased by McCoy brothers for use on Lake Okechobee. The boat is now in dry dock being prepared for the new service. Capt. Spencer, who formerly made the inspection here in company with Capt. Tyler, is now engaged with the P. & O. Steamship company at Key West.

\*German toys, whilst prizes and gift novelties. The Colonial Shop.

E. H. Shoemaker, who some time ago purchased the Skiffen place on North Beach street, is having the house torn down. The roof had been in bad shape for several years and the damage to the interior of the building was such that it was not worth repairing. Mr. Shoemaker is having a lighter built on the parkage in front of the property, which he will use for covering wood from a tract of land on Spruce creek to this city.

\*Some day you will be glad you didn't forget. JUNGLE STUDIO.

The Franciscan sisters are again with Mr. and Mrs. Raymond Smallwood. They spent three weeks with them one year ago.

\*FOR SALE — Motorcycle, bargain, 34 First avenue, City.

Mrs. M. Black arrived Wednesday afternoon from Mansfield, Ohio, and joined her brother, Geo. W. Blymyer, and other members of the family in this city for the remainder of the season. Mrs. Black has spent many seasons here in the past and has many friends in the city.

\*For children's dresses and rompers see the Chas. E. Gardiner Co.

A. B. Aubrey of Meriden, Conn., a nephew of Mrs. J. E. Stillman, and Mr. Aubrey's brother-in-law, Ruben Blatchley, also of Meriden, are making Mr. and Mrs. Stillman a short visit at their home, corner of Ridgewood and Volusia avenues. Mr. Aubrey is an attorney and corporation counsel for Meriden.

\*Tissues and Tub Silks—Just the things for summer dresses. You will find a fine line at the Chas. E. Gardiner Co.

Paul Gilmore's engagement at the New Daytona theatre will present the actor-manager in a big dramatic role of the type with which playgoers have learned to associate his name. "The Havoc" is a tense, gripping drama, built upon the story of a deal of wife between an injured husband and a treacherous guest in his home. The big role of the play, the husband, offers one of the most convincing characters seen on the stage in recent years and is played by Mr. Gilmore with quiet power, and those nervous force.

\*Embroideries—Anything from 5c a yard up—At the Chas. E. Gardiner Co.

THOSE WHO HAVE BEEN  
LICENSED TO MARRY.

During the past week County Judge J. Lee McGarry has issued marriage licenses as follows:  
Laurie Baker Crisp to Laura Butler.  
Fred Penlock to Annie Plauson.  
L. R. Nettles to Mary L. Rhodes.  
G. H. Elven to Mrs. Mary M. Rought.  
Wm. Earle Hatch to Frances Pauline Pickney.  
Samuel Prince to Maggie Davis.
